Spring Find You Tired, Achy, All Worn Out? Then Look to Your Kidneys! This Is a Common Condition in April and Is Often Due to Weakened Kidneys

DOAN'S early spring find you utterly miserable with an aching back? Do you get up lame and stiff—fat through the day feeling tired, weak, nervous and depressed? Don't let time, then, you found out why you are so run down—why you are so unable to enjoy the first fine days of spring?

There is some good reason for your condition and more than likely it's weakened kidneys. Winter, you know, is mighty hard on the kidneys. Colds and chills, a heavier diet with less exercise, and less elimination through the skin, all throw a heavy burden on the kidneys.

"Use Doan's," Says These Tulsa Folks:

T. D. JOHNSTON, 711 Lansing Ave., says: "My kidneys were in bad condition and my back got so weak and lame I couldn't do any stooping or lifting. There was a steady, dull ache in the small of my back, especially mornings, and the action of my kidneys was too free. I read of Doan's Kidney Pills and used them as directed. They soon strengthened my back and kidneys and relieved the ache and pains."

MRS. C. N. CLARK, 201 N. Boulevard St., says: "I am glad to recommend Doan's Kidney Pills. I have found them to be a good kidney remedy. My kidneys were out of order and I had a weak back that made me so miserable I could hardly do my housework. I often had nervous headaches and my kidneys acted irregularly. I used Doan's Kidney Pills and they corrected the trouble. The backaches left me and I felt better in every way."
